# Open Labs schedule

9:00 AM - This will remain beginner hour presentation and one-on-one analyst sessions

9:30 AM - We will have a presentation targeted at 'consumers' that covers data available on the IRAA website and Tableau Server. You all are more than welcome if it is a topic you are interested in. Depending on turnout, we may be able to keep the rooms separated during the 9:30 session so conversation/analyst sessions can continue.

10:00 AM - We will have a presentation targeted at 'creators' that covers a variety of topics. I am hoping that these presentations last 20 to 30 minutes to allow time for questions on other topics and collaboration after.

Presentations will be announced 4 to 6 weeks out. This is to allow for flexibility in what is covered.
