

New Enrollment Dashboard - website

- Everything you had before, but with new cool stuff
- Built off of new ENROLLED_STUDENTS_CPE_IPEDS: only regulatory data though
- When looking for data, START HERE->
- IRAA website: <http://www.uky.edu/iraa/studentdata/enrollment>

What's New?

- Student Population Selector
- Gives users ability to pre-filter for certain populations
- Text available to describe who is included in each population

The screenshot displays the 'Student Data - Enrollment' interface. At the top, there are navigation tabs: 'Year', 'College/Degree', 'Demographics', 'Maps', 'Table - College/Degree', and 'Table - Major/Degree'. Below these is a large blue box titled 'Enrollment By Year'. A 'Population of Students Selector' dropdown menu is open, showing options: 'All Students - CPE', 'All Students - CPE', 'All Students - IPEDS', 'Undergraduate - CPE', 'Undergraduate - IPEDS', 'Graduate - CPE/IPEDS', and 'GRS Cohort'. To the right of the dropdown is a text box explaining that 'All Students - CPE' includes undergraduate and graduate students, as well as those auditing all classes, house staff, and post-doctorals. Below the dropdown are three more dropdown menus: 'College' (partially visible), 'Degree Level' (set to '(All)'), and 'Degree Type' (set to '(All)').

Population of Students Selector

GRS Cohort

GRS Cohort students include those students who are attending college for the first time at the undergraduate level and are full time, degree seeking, and eligible to be reported in the IPEDS Graduation Rate Survey. Students whose major is undelcared upon entrance of college, who attended college for the first time in the prior Summer term, or who enter college with advance standing from earning college credit while in high school are included.

New Enrollment Dashboard – TB Server

- Name: Institutional and Regulatory Enrollment
- Student Reports and Student Reports Detail versions
- Replacing Institutional Enrollment... eventually
- TB Server:
<https://analytics.uky.edu/#/workbooks/4617/views>

What's New?

- Data Source Selector
- Gives users the opportunity to look at data in various ways
- Descriptions of what each option means

Data Source Selector ?

- Institutional
- Regulatory w/ Preliminary
- Regulatory

There are different forms in which data are stored depending on what it is being used for. Below are the three forms in which our data are stored.

Institutional: The data represented in the workbook is "live", meaning it is updated each day to reflect any changes.

Regulatory: The data represented in the workbook is "static", meaning it is reflective of what was taken at a specific date. This data is what is sent to our government reporting agencies and has been approved.

Regulatory w/ Preliminary: The data represented in the workbook is the same as the regulatory form, but includes the preliminary numbers for the current/upcoming academic term. This allows users to have a good estimate of the data until it is approved.

Difference from website

The screenshot displays a web interface for 'Enrollment By Year'. At the top, the title 'Enrollment By Year' is centered in a light blue header. To the right, a 'Data Source Selector' panel contains three radio buttons: 'Institutional', 'Regulatory w/ Preliminary', and 'Regulatory', with the latter selected. Below the header, a 'Population of Students Selector' dropdown menu is open, listing options such as 'All Students - CPE', 'All Students - IPEDS', 'Undergraduate - CPE', 'Undergraduate - IPEDS', 'Graduate - CPE/IPEDS', 'GRS Cohort', 'First Time in College', and 'Undergraduate Transfers'. The main content area features a descriptive text: 'All Students - CPE includes undergraduate and graduate students, as well as those students who are auditing all of their classes. House staff and post-doctorals are also included.' Below this text are several filter dropdown menus: 'College', 'Department', 'Primary Major', 'Degree Level', 'Full/Part Time', 'Ethnicity', 'Gender', and 'Residency', all currently set to '(All)'. At the bottom, a 'Split Population of Students By' dropdown is set to 'Ethnicity'. A partial view of a chart titled 'Time Series by Ethnicity' is visible at the bottom left, showing a bar for 'Fall'.
