October 29, 2002

Members, Board of Trustees:

BACHELOR OF SCIENCE IN BIOSYSTEMS AND
AGRICULTURAL ENGINEERING

Recommendation: that the Board of Trustees approve the change in the name of the Bachelor of Science in Agricultural Engineering to Bachelor of Science in Biosystems and Agricultural Engineering.

Background: The name of the Department was changed from Agricultural Engineering to Biosystems and Agricultural Engineering in 1995 to reflect the shift from the traditional emphasis on engineering for agriculture toward a broader study of engineering for biological systems. Approval of this recommendation will change the undergraduate degree title to conform to the departmental name.

This proposal has the approval of the Undergraduate Council, Senate Council and University Senate. The Acting Provost of the University supports this recommendation.
