Members, Board of Trustees:

REQUEST TO COMBINE THE UKCUP ENDOWMENT FOR UROLOGICAL
RESEARCH WITH THE
ENDOWED PROFESSORSHIP FOR NEURO-UROLOGIC RESEARCH

Recommendation: that the Board of Trustees approve a request from James Hardymon of Lexington, Kentucky to combine the UKCUP Endowment for Urological Research with the Endowed Professorship for Neuro-Urologic Research in the College of Medicine's Division of Urology. The combined endowments will retain the name of Endowed Professorship for Neuro-Urologic Research.

Background: Dr. Randall Rowland, chief of the Division of Urology, and Mr. James Hardymon, chair of the Board of Trustees, believe that this combination would create a larger endowment, providing greater resources for research in the area of neuro-urology.
