Members, Board of Trustees:

IMPROVE PARKING/TRANSPORTATION SYSTEMS UK HEALTHCARE
(PARKING STRUCTURE 8 EXPANSION - DESIGN ONLY)

Recommendation: that the Board of Trustees approve the initiation for the design of the Improve Parking/Transportation Systems UK HealthCare (Parking Structure 8 Expansion – Design Only) project.

Background: Pursuant to Administrative Regulation 8:2, any capital project with an estimated scope of \$1,000,000 or more must be approved by the Board prior to initiation.

Since opening the first two patient care floors in Pavilion A in May 2011, UK HealthCare has continued to experience strong inpatient admissions growth. This volume increase has placed substantial capacity constraints on UK inpatient hospital operations. To meet this demand, patient floors 8, 9, and 10 have been fit-out and placed in operation. Currently the 5th floor is under construction and the 12th floor is in design. This increased patient volume has created a need for additional parking.

This project will include traffic analysis and design of an expansion west of the existing Parking Structure 8 and associated site work to include stormwater detention systems. Once constructed, the expanded structure will help alleviate current and future parking demands by providing approximately 700 additional parking spaces.

This \$5,000,000 design project, authorized by the 2020 Kentucky General Assembly, is within the total legislative authorization of \$150,000,000 and will be funded with agency funds.

Action taken: Approved Disapproved Other _____
