Office of the President
June 17, 2021

Members, Board of Trustees:

ACADEMIC YEAR 2021-22 TUITION AND MANDATORY FEES SCHEDULE

Recommendation: that the Board of Trustees approve the attached Academic Year (AY) 2021-22 Tuition and Mandatory Fees Schedule. The recommended tuition and mandatory fees reflect a one percent increase for most students and a pricing structure change for undergraduate students as described below.

Background:

Recommended Tuition and Mandatory Fees – Pricing Structure

Beginning fall 2019, undergraduate courses offered fully online were assessed using the applicable Undergraduate Online Learning Rate. These Internet, web-based courses were assessed tuition and mandatory fees per credit hour, separate and in addition to tuition and mandatory fees for any other courses. This pricing strategy was consistent with the structures used by many benchmark institutions and other Kentucky public universities. The Undergraduate Online Learning Rate was the same for resident and non-resident undergraduate students.

Staff did not contemplate that, within six months of implementing this online pricing structure change, the coronavirus would upend daily life. In response to the pandemic, most of the university's classes moved to an online modality during the spring 2020 semester.

From summer 2020 through summer 2021, the university continued to offer many classes in a fully online format. As students often did not have options for course modalities, the president approved a revision to the pricing structure. Beginning with the fall 2020 semester, undergraduate tuition was assessed per the approved rate schedule but capped at the applicable full-time rates.

The Covid-19 pandemic has resulted in some lasting changes, including more widespread use of technology. In response to undergraduate students' expectations and current learning practices, senior leadership recommends modifying the pricing structure for undergraduate students. No comprehensive pricing structure changes are recommended for graduate or professional programs at this time.

Effective fall 2021, undergraduate certificates and degree programs will be offered on two platforms, UKCampus and UKOnline. Most undergraduate programs will be offered through UKCampus. Fully online certificates and degree programs (i.e., Internet, web-based) will only be offered through UKOnline.

For students enrolled in UKCampus programs, tuition will be assessed per credit hour up to 12 hours. Full-time per semester rates (capped rates) will be charged to undergraduate students enrolled for 12 or more credit hours. Class delivery mode (e.g., in-person, fully online, hybrid, etc.) will not impact the tuition assessment.

Undergraduate students enrolled only in a UKOnline certificate or degree program will be assessed the UKOnline rate for all credit hours. There is no full-time tuition cap for UKOnline undergraduate certificate and degree programs. The UKOnline rate is the same for resident and non-resident undergraduate students.

Undergraduate students with a declared primary academic program with the UKCampus may add a UKOnline minor and/or certificate at no additional charge. Undergraduate students with a declared primary academic program within the UKCampus who add a second major offered through UKOnline will be assessed the UKOnline rate for all online courses in addition to the regular tuition assessment for all other courses. Students whose only academic program is offered through UKOnline will be limited to enrolling in UKOnline courses.

Recommended Tuition and Mandatory Fees – Rates

Pursuant to KRS 164.020(8), the Council on Postsecondary Education has the statutory authority to determine tuition for Kentucky's public colleges and universities. The Council considers any required fees charged to most students as subject to the statute.

Over the past six months, Council staff and campus officials identified several key issues that were relevant to the setting of tuition and mandatory fee parameters, including:

1. the level of institutional operating funds provided in the recently enacted state budget (HB 192)
2. anticipated increases in fixed and unavoidable costs for the upcoming year
3. rising pension retirement benefit costs
4. COVID-19 related costs and forgone revenue, and the extent to which federal relief funds are available to help offset those costs
5. declining enrollment at nearly every university and college and the impact of that trend on the ability of the postsecondary system to achieve the state's 60 percent college attainment goal by the year 2030 and,
6. the magnitude of prior-year tuition and fee increases.

On May 13, 2021, the Council adopted resident undergraduate tuition and mandatory fee ceilings for academic years 2021-22 and 2022-23 of a maximum rate increase of no more than 3.0 percent over the two years and a maximum increase of no more than 2.0 percent in any one year.

The Council also adopted a recommendation that the public institutions be allowed to submit for Council review and approval market competitive tuition and fee rates for graduate and online courses, as well as tuition and fee rates for nonresident students that comply with Council policy. The Council's current policy states that every institution shall manage its tuition and fee rate structures, price discounting, and scholarship aid for out-of-state students, such that in any given year, the average net tuition and fee revenue generated per nonresident undergraduate student equals or exceeds 130 percent of the annual full-time tuition and fees assessed to resident undergraduate students.

Reflective of senior leadership's desires to address student affordability concerns while recognizing the university's fiscal challenges, the attached schedules reflect modest tuition and mandatory fee rate increases of one percent for most students. The recommended rates comply with the Council's tuition and mandatory fees ceilings and policy.

The university assesses 18 mandatory fees that support a range of student services such as the Student Government Association, student health, and technology. Student mandatory fees are assessed based on the student's full-time or part-time status, program platform (UKCampus or UKOnline), and program level (undergraduate, graduate or professional). Each year, the Student Fee Allocation Committee of the Student Government Association solicits and reviews proposals for changes in mandatory fees. Given concerns with affordability, the committee did not propose any changes to mandatory fees for AY 2021-22.

This recommendation includes two changes to mandatory fees – a \$7 increase, or 1 percent, in total mandatory fees from \$674.50 to \$681.50 for technology support and a reallocation of \$20 from the Student Health Fee to the Student Wellness Fee. The increase in the Technology Fee is needed to partially offset the elimination of the Distance Learning Fee described below. The reallocation of a portion of the student health fee to student wellness will allocate more funds for various student services including counseling and wellness coaching (financial, time management, healthy eating, sleep habits, etc.).

In the past, all students enrolled in courses offered in a distance learning format such as fully online (i.e., Internet, web-based delivery mode), hybrid, off-campus, TV courses, and compressed video were assessed a \$10 per credit hour Distance Learning Fee in addition to tuition, mandatory fees and any other course-specific fees. As part of the change in the undergraduate pricing structure, the recommendation includes eliminating the Distance Learning Fee for undergraduate students.

The recommended tuition and mandatory fees are presented in Attachment I. Mandatory fees are shown separately in Attachment II. University staff has submitted the attached rates to the Council on Postsecondary Education for consideration, pending approval by the Board of Trustees. The Council is expected to review and consider the university's AY 2021-22 tuition and mandatory fee rates later this month.

The recommended program, course, and administrative fees for AY 2021-22 are included in FCR 6 Fiscal Year 2021-22 Operating and Capital Budget. Generally, there is no recommended increase in these fees for AY 2021-22.

University of Kentucky
Academic Year 2021-22
Recommended Tuition and Mandatory Fee Rates
NOTES

¹**Tuition and Mandatory Fee Rates.** The applicable tuition and mandatory fee rates are determined at the time charges are assessed based on the student's primary academic program, including students concurrently pursuing multiple degrees and/or certificates. Course and program fees are not included in the above rates.

²**Undergraduate Tuition.** For Academic Year (AY) 2020-21, undergraduate courses offered fully online were assessed using the applicable Undergraduate Online Learning Rate. These Internet, web-based courses were assessed tuition and mandatory fees per credit hour, separate and in addition to tuition and mandatory fees for any other courses. The Covid-19 pandemic has resulted in some lasting changes, including more widespread use of technology. In response to undergraduate students' expectations and current learning practices, a change in the pricing structure for undergraduate students is recommended. Effective fall 2021, undergraduate certificates and degree programs will be offered on two platforms – UKCampus and UKOnline.

UKCampus. For students enrolled in the UKCampus, tuition and mandatory fees will be assessed per credit hour up to 12 hours. Full-time per semester rates (capped rates) will be charged to undergraduate students enrolled for 12 or more credit hours. Class section delivery mode (e.g., in-person, fully online, hybrid, etc.) will not impact the assessment.

UKOnline. Fully online certificates and degree programs (i.e., Internet, web-based) will be offered only through UKOnline. Undergraduate students enrolled only in a UKOnline certificate or degree program will be assessed the UKOnline rate for all credit hours. There is no full-time tuition cap for UKOnline undergraduate certificate and degree programs. The UKOnline rate is the same for resident and non-resident undergraduate students.

UKCampus & UKOnline. Undergraduate students with a declared primary academic program with the UKCampus may add a UKOnline minor and/or certificate at no additional charge.

Undergraduate students with a declared primary academic program within the UKCampus who add a second major offered through UKOnline will be assessed the UKOnline rate for all online courses in addition to the regular tuition assessment for all other courses.

Students whose only academic program is offered through UKOnline will be limited to enrolling in UKOnline courses.

³**Graduate and Professional Practice Tuition.** Graduate and professional practice doctoral students enrolled for nine or more credit hours are assessed full-time per semester rates. Part-time students are charged on a per credit hour basis.

University of Kentucky
Academic Year 2021-22
Recommended Tuition and Mandatory Fee Rates
NOTES

Students considered full-time for financial aid and reporting purposes, but with less than full-time credit hours, (e.g., graduate students in residency status) are assessed on a per-credit hour basis.

Graduate students enrolled exclusively in courses offered through distance learning are assessed tuition using the applicable resident rate, regardless of residency status. Distance learning courses include delivery modes of fully online (i.e., Internet, web-based), hybrid, off-campus, TV, and compressed video.

⁴Mandatory Fees. Mandatory fees are assessed based on the student's full-time or part-time status, program platform (UKCampus or UKOnline), and program level. If a student wishes to participate in any activity supported by a mandatory fee that has not been assessed, the student must pay the total mandatory fees for the semester, except as follows.

Part-time students may pay the Student Health Fee and the Student Wellness Fee to access University Health Service. Students enrolled in programs within the colleges of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy, and Public Health are assessed the Student Health and the Student Wellness mandatory fees regardless of the location of courses. Students enrolled in programs within the College of Medicine are assessed all mandatory fees regardless of the location of the courses.

No refunds for the Student Health and Student Wellness fees will be provided to full-time students who change their status to part-time enrollment during an official refund period other than 100 percent. However, these students will maintain access to University Health Service while enrolled during the term. Refunds for the Student Health and Student Wellness fees will be processed for students who officially withdraw from the university through the Registrar's Office. Refund amounts will be determined in accordance with the schedule noted on the official University Calendar.

Undergraduate Students. Full-time, undergraduate students enrolled in the UKCampus are assessed a maximum of \$681.50 for mandatory fees per term. Part-time, undergraduate students enrolled in the UKCampus are assessed \$43.00 per credit hour. Undergraduate students enrolled only in UKOnline are assessed \$11.50 per credit hour with no full-time cap.

Pursuant to the Memorandum of Agreement with the Kentucky Community and Technical College System, students enrolled at the Bluegrass Community and Technical College (BCTC) may select and pay for specific services from the list of mandatory fees. However, all mandatory fees will be assessed BCTC students that reside in University of Kentucky student housing.

Full-time, graduate students enrolled in all distance learning courses are assessed \$135.50 for mandatory fees per term. Part-time, graduate students enrolled in all distance learning courses are assessed \$15.50 per credit hour for mandatory fees. ⁶**Extraordinary Circumstances.** The President, or his delegate, may interpret the application of these rates on an individual student basis in extraordinary circumstances. In periods of public health emergencies or other large-scale disruptions, the President, or his delegate, may also interpret the application of these rates in accordance with the university's response to such disruptions.

⁷**UK College of Engineering Extended Campus Program – Paducah.** Lower-division undergraduate students (freshmen and sophomores) enrolled in the UK College of Engineering Extended Campus Program – Paducah are assessed tuition and mandatory fees based upon the West Kentucky Community and Technical College's tuition and fee rates. Upper-division undergraduate students (juniors and seniors) enrolled in the UK College of Engineering Extended Campus Program – Paducah are assessed the applicable UK rates. Non-resident undergraduate students from select contiguous counties in Illinois (Massac, Alexander, and Pulaski) that are enrolled in this program are eligible for the applicable Kentucky resident rates.

⁸**BCTCblue+ Program.** Undergraduate students in the BCTCblue+ Program may enroll in up to 12 credit hours (no more than four courses) during the fall and spring semesters at the current Kentucky Community and Technical College System tuition rate plus associated University of Kentucky mandatory fees and any applicable course fees. In addition, the University does not charge any additional fees to dual credit students such as lab fees, special equipment and admission or application fees.
