Which aspects of the course were most helpful? Why?

Comments
dr. lane was one of the best professors i have had. he has always offered help to me when i need it.
The teaching style
When studying the cases studies, reading to take my reading quizzes, and almost when learning through cases simulations about how team members can work together to accomplish the organizational goals. Fabulous time with Dr. Lane.
Super organized and the materials were delivered very well
The clear communication and scheduling of the class encouraged students and made the course load achievable.
this course has helped me develop stronger leadership skills and improve my team building skills.
All
Assignments were very manageable, and most of the class sessions reviewed content from the readings.
The instructor was not only a professional in his career, but he cares about his students and understands that life can be busy sometimes.
I really learned a lot about leadership and the type of leader I am. I also learned how to be a better leader and what I look for/expect in leaders.
Having reading quizzes over the book that we had to read helped me memorize the content much better. We also did presentations discussing certain parts of the course material which helped me better learn in detail each theory.
There were some aspects that I will be able to look at when I start my job.
The teacher was very helpful and understanding

Which aspects of the course would you change? How and Why?

More in class work days for final project
NA
Maybe add even more group work throughout the whole semester.
I think this course was very well organized and impactful, the only thing I would change would be better description of the big assignments.
None
I would not change anything.
n/a
nothing
I would make it more relatable to having a job in the real world. I understand the theory aspect of this course but in my experience at internships this is the last thing on the corporate world's minds. I really thought this course was a complete waste of time because I really didn't learn anything that I really needed or didn't know already.

He really sucks at teaching the content. He and all of the other communications professors make me really hate the fact that this is going to be on my diploma.
