Which aspects of the course were most helpful? Why?

Comments
The quick recap of what was previously covered served as a great refresher.
The theory summary was the most helpful part. In the beginning of this class I was genuinely confused on theory and metatheory and all those topics. Once we got into the summaries, life became a lot easier and I started understanding what it was.
The readings being in a file
Dr. Lane arranged the Canvas course in a logical, easy-to-navigate format. Additionally, he provided supplemental resources to students to strengthen their work in class or simply to provide more information about a topic they were interested in.

Which aspects of the instructor Derek Lane were most helpful? Why?

Comments
Dr. Lane was always prepared to answer any questions before, during, and after class. It is clear that he has the students' best interests in mind. He frequently checks in with students to see how their work is coming along and offers to help in any way possible. Despite his busy schedule as a professor, he makes ample time to schedule meetings with students to ensure that everyone gets the most out of the course. From day one, he has really gone the extra mile to reinforce class material and minimize any misunderstandings.
Easily accessible and always willing to point you in the right direction.
Was fast and responsive
Dr. Lane encouraged and believed in all of his students. He taught us all of the tools we needed for success on assignments in his class in addition to teaching us how to feel capable talking about theory. His teaching methods not only built knowledge – but confidence along the way.
